

TRU MARK *Athletic Field Marker*

TM

E-100

- 3-in-1 Sprayer** -- Applies water based field marking and traffic marking paints and herbicides
- 12 volt diaphragm pump operations
 - **Floating paint shoe** guards guarantee crisp even width lines

Weight: 110lbs (Field Ready)
Shipping: 105lbs
Storage Size: 24" H x 32" W x 42" L
Assembled Size: 42" H x 32" W x 52" L
Spray Rate: 60-100 Ft./Min.

Corrosion resistant spray head bracket

- Adjustable spray shoe for line widths from 2" to 6"
- **Dual nozzle head** applies paint for single pass distinctive lines

Square tubular welded steel frame

- Polyurethane enamel coating for a long lasting finish
- Handlebar assembly removes for easy storage and transport
- Brass and corrosion resistant parts for longer life and easy cleaning

Ergonomic design for improved control and reduced fatigue

- Wide 3 wheel deck and handlebar design
- 10" pneumatic tires on ball bearing hubs -- rolling ease and "tru" tracking of straight lines
- Dual handlebar controls -- for paint shoe and spray nozzle operations
- Flow Control Valve -- reduces paint usage for touch ups
- Electrical switch for pump operation at handlebar level
- Console gauge to indicate battery charge status

Paint is screened three times -- screen funnel when loading tank, intake line screen in tank, and check valve screen at spray tip.

Standard quick disconnect spray wand

- 12' hose for ease of stenciling and hand marking

- 12 volt rechargeable electrical system
- Uses economical group 24 deep cycle marine battery (not included)
- Rugged molded battery case with quick disconnect cable provides safe charging
- Automatic shut off charger for fully charged battery
- 3.3 gallon per minute 12 volt Shurflo pump -- provides 35 psi at the spray tips using water soluble paint

Translucent 5-gallon poly tank

- Convenient mixing is 100% corrosion proof and easy to clean and carry
- Easy to read graduated paint level markings
- Non-pressurized tank -- safe to use
- **Return line keeps paint agitated**

Tool kit

- Tools for maintaining equipment

Paint storage and mixing kit

- Carboy and screened funnel for easier and cleaner mixing

E-100 Paint Boom

- E-100 quick attachment accessory
- Time-saving feature for football "hash marks", "block-out" painting, coaches/players boxes, logo design
- Spray a band of growth regulator over your marking lines to reduce mowing at shorter heights.
- Weight: 8 lbs.
- Shipping: 12 lbs.
- **FEATURES:**
 - Reinforced high grade aluminum frame
 - Light weight 4" x 24" paint box designed for easy nozzle access and visibility
 - Steel mounting bracket for strength and quick spray boom attachment and removal, adjustable for different grass heights
 - Adjustable wide angle 2 spray nozzle assembly for overlap coverage
 - Quick disconnect hose connector
 - Paint flow controlled from handle control on the E-100 handlebar

Easy upgrade kit available for early E-100 markers.
